Re: Decision - Non Compliance Order dated May 23, 2013 - Black Rock Quarry

Dear Mr. Gates

I am in receipt of the above referenced Decision. The Decision references an inspection date of March 27, 2013. As a result of an earlier conversation I had with Jerry Mansfield of your office, In April of this year all trash, debri, scrap materials and mobile machinery was removed from the site and the site was cleaned. In May all other equipment and machinery was removed from the site as part of a program of reclamation.

On May 24, 2013, I met with Jerry Mansfield and Duane Bays, of your office and notified them that I would be moving a D8 dozer on site the first week of June to complete reclamation and requested a seed configuration for final seeding.

Accordingly, I submit that Allroc Fine Aggregates is in compliance with the regulations and your order and it is respectfully requested that you rescind the Order.

Should there be any additional concerns please advise.

Kindest regards,

W. David Weston
